**SUBJECT:** Flammable Refrigerant

PB-124

Issued: July 8, 1999

PAGE: 1 of 1

REV DATE: 1/15/2007

R600a refrigerant is classified as flammable. Because of this, the system must be designed to utilize a charge of no more than 150 grams at all conditions and meet all applicable safety standards. Compressors and equipment specified for R600a must meet all applicable safety and performance standards. Compressors suitable for R600a will be so designated.
