SUBJECT: Usage of Direct Suction Compressors

Issued: November 9, 1989

PB-120

PAGE: 1 of 1

REV DATE: 4/25/2007

The need for higher efficiency systems to conserve energy and to meet the government efficiency standards has made the usage of direct suction compressors more popular. Along with the increased usage of these types of compressors comes the increasing need to protect the compressors from system contamination.

Engineering Policy No. [EP-8](#), entitled: "Engineering Policy on:

APPLICATION PRECAUTIONS RELATING TO THE USAGE OF DIRECT SUCTION COMPRESSORS

is offered by Tecumseh's Engineering Department to express our concerns regarding system contamination/direct suction compressors.
